

Community Development Officer & School Update

As you know, the community development plan team is working hard on options for potentially repurposing Torrison Primary School. Our consultants SKS are close to finalising their report and we will share more information about that soon.

In the meantime, you will recall that we successfully obtained grant funding to employ a Community Development Officer, whose primary role will be to take forward the actions identified in the Development Plan.

We are delighted to announce that we have successfully recruited Katie Anderson for this role. Katie is excited about moving to the area and her provisional start date is 29th April. She has many years' experience of working in the Voluntary, Community & Social Enterprise Sector, this includes working with volunteers and liaising with funders.

Katie will be employed by TDCA and work out of Loch Torrison Community Centre. I am sure she will be out and about in the community as she gets to know people. Exciting times for Katie and our community. I am sure everyone will join me in making her feel welcome.

Mat Webster

On behalf of the Development Plan Sub Committee
